Dear friends,

Allow me to express our sincere gratitude to you from the residents of Netishyn town, members of the primary trade union organization and youth organization of Khmelnytskyi Nuclear Power Plant for your support.

On February 24, 2022 the Russian Federation triggered off a full-scale war against Ukraine destroying cities, their infrastructures, killing civilians, and even seizing nuclear facilities. Thousands of innocent people are dying from the aggressor's bombs or becoming refugees.

At these hard times, our town residents and Khmelnytskyi NPP personnel are doing their best to protect the nuclear facility and civil population of Netishyn, the NPP satellite town. The territorial defence units have been arranged, and our plant provides support to the Armed Forces and National Guard of Ukraine.

Any assistance is crucial to fight the aggressor, who insidiously attacked Ukraine. Therefore, we kindly ask you for humanitarian aid for the Ukrainian nuclear power plants and our defenders, in particular: food that is ready-to-eat, instant food, baby food, and other nutrition products, hygiene products, adult-sized and children's diapers, medication, first aid kits, personal protective equipment, helmets, radio stations and night vision scopes, binoculars, and thermal imaging cameras. Our defenders also need battlefield dress and other equipment to protect our city, the nuclear power plant and Ukraine.

We can pick up the goods and equipment at any point of the western border of Ukraine or in another country and promptly use all the aids for the protection and self-defence.

We appreciate your support and thank you in advance.

We keep working together, trusting and helping each other – for the victory to be ours!

Our best regards,

Head of KhNPP PTU Youth Organization

Yevhenii MYHALETS
