№ 709ШФ-13/04 from 13.04.2022

Dear Mr. Bart Wensink,

We are very grateful for the support and help you've provided. In time of war in Ukraine when Russian armed forces started destroying Ukrainian cities with missiles, civilian loses are tremendous, while a lot of hospitals were destroyed and those, left safe, lack the required equipment.

Let us express our gratitude for your work and the help you given us in delivering nine medical beds to save lives of injured people.

We would like to remain fully transparent in our work. With this in mind, we keep track of all support received and delivered to specific recipients, and we share frequent updates on our website: <https://helpcenter.in.ua>

In such hard times, it is crucial to know, that Ukrainians are not alone in this battle and to feel support, that you have shown us by cooperating. On behalf of the Ukrainians you helped, we thank you for all your help and look forward to working with you in the future.

With respect and hope,

Nongovernmental organization "Narodna Samooborona"

Valeriy VEREMCHUK
